

COL Campus

Learning Management System (LMS)

Interactive, flexible and integrated

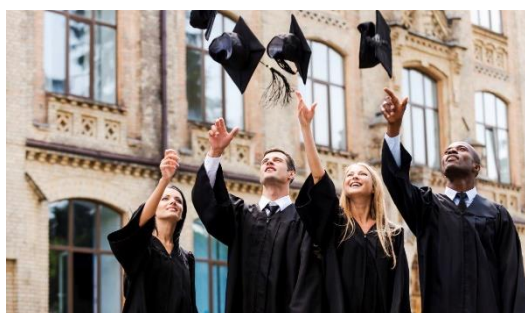

COL Campus is an online Learning Management System that uses integrated tools to promote the exchange of learning and assessment content, whether for distance or face-to-face learning.

Students today are evolving and relying more and more on technology for their learning, requiring training providers to adapt, as well as update their learning systems to be able to keep-up with these changes.

COL Campus is dedicated to changing the traditional classroom and style of teaching towards becoming more interactive, flexible and technology driven. Through its compatibility with ICAS® and most Student Information Systems (SIS), COL Campus modernises your systems, helping you to keep up-to-date with new learning strategies and move towards a paperless campus.

COL Campus moulds with your unique needs and offers your College:

- **Openness**
- **Customisability**
- **Flexibility**
- **Reliability**
- **Support**
